# Child Abuse and Neglect in Missouri

Report for Calendar Year 1997

Missouri Department of Social Services 221 West High Street P.O. Box 1527 Jefferson City, Missouri 65102-1527

### Department of Social Services Mission Statement

To maintain or improve the quality of life for the people of the state of Missouri by providing the best possible services to the public, with respect, responsiveness and accountability, which will enable individuals and families to better fulfill their potential.

MEL CARNAHAN GOVERNOR

# MISSOURI DEPARTMENT OF SOCIAL SERVICES DIVISION OF FAMILY SERVICES

P.O. BOX 88 JEFFERSON CITY 65103 TELEPHONE: 573-751-3221 RELAY MISSOURI for hearing and speech impaired TEXT TELEPHONE 1-800-735-2966 VOICE 1-800-735-2466

July 1998

Dear Readers:

Thank you for your concern regarding child abuse and neglect in Missouri. This report numerically represents all child abuse/neglect investigations completed in Missouri in 1997. In addition, there is a description of Family Assessments, a process which limits intrusion in the family while offering appropriate services. This demonstration project was called for in 1994 legislation. Legislative approval was passed in May, 1998 for expansion of this project statwide.

As we review the following statistics, we are aware of the many families who need support and whose children represent the future. The Division of Family Services is devoted to ensuring the safety of the children, while keeping as many families together as possible. When children must be removed from their home, we are committed to providing them the best possible care and ensuring a permanent home.

While we know it is sometimes a difficult job, we commend the efforts of all who work with children and families. High quality support for the children in Missouri is a duty we share with many other committed citizens in the state.

Sincerely,

Carmen K. Schulze

Director

### Introduction

#### **Summary Statistics**

This report compiles data collected by the Missouri Department of Social Services (DSS), Division of Family Services (DFS) in the course of Child Abuse and/or Neglect (CA/N) investigations/assessments.

#### Reports

• During 1997 there were 51,180 reports of child abuse/neglect, involving 80,200 children.

Total Number of Reports 51,180
Total Number of Reported Children 80,200

#### Probable Cause

• There were 10,159 probable cause incidents, involving 15,596 children. This represents approximately twenty percent (20%) of all reports.

Total Number of Probable Cause Reports 10,159
Total Number of Probable Cause Children 15,596

#### Child Protection Services Demonstration (SB 595)

• In five demonstration areas across the state, a total of 6,082 reports were screened Family Assessment (FA) in accordance with Senate Bill 595, which was signed into law in 1994. These reports involved 9,613 children.

Total Number of FA Incidents 6,082
Total Number of FA Children 9,613

Note: All counts of children are duplicated because a child may be reported more than once during the year.

### Introduction

#### **Definitions**

#### Legal:

The Missouri Child Abuse Law, Section 210.110 RSMo defines:

Abuse as any physical injury, sexual abuse, or emotional abuse inflicted on a child other than by accidental means by those responsible for the child's care, custody, and control except that discipline including spanking, administered in a reasonable manner shall not be construed to be abuse; and

**Neglect** as failure to provide, by those responsible for the care, custody, and control of the child, the proper or necessary support, education as required by law, nutrition or medical, surgical, or any other care necessary for the child's well-being.

Care, custody and control of the child, includes but is not limited to the parents or guardian of a child, other members of the child's household, or those exercising supervision over a child for any part of a twenty-four hour day. Those responsible for the care, custody and control shall also include any adult, who, based on their relationship to the parents of the child, members of the child's household or the family, has access to the child.

**Investigation** is the collection of physical and verbal evidence to determine if a child has been abused or neglected.

Family assessment and services is an approach which provides for a prompt assessment of a child who has been reported to the DFS as a victim of abuse or neglect by a person responsible for that child's care, custody or control and of that child's family. This includes risk of abuse and neglect and, if necessary, the provision of community-based services to reduce the risk and support the family. This approach takes the place of the traditional investigation and for this report period applies only to the five areas participating in the Senate Bill 595 Child Protection System demonstration.

#### **Operational:**

At the end of each child abuse/neglect investigation/assessment, the social worker reaches a conclusion. The following are operational definitions for investigative conclusions:

**Probable Cause:** A finding that abuse/neglect has occurred or is occurring as a result of the observation of visible signs, physical and/or credible verbal evidence provided to the Children's Services worker by the child, perpetrator or witnesses in accordance with the definitions of abuse/neglect. This also includes cases which are adjudicated by the courts.

Unsubstantiated-Preventive Services Indicated: A finding that insufficient visible signs, physical and/or credible evidence exist, but where the social worker determines that indicators are present which, if unresolved, could potentially contribute to child abuse/neglect.

**Unsubstantiated:** A finding that insufficient physical or credible verbal evidence exists and where few or no indicators are identified and the social worker has not identified a specific threat exists for the child.

### Introduction

Operationally, a family assessment is completed in five demonstration areas in place of an investigation for certain types of CA/N reports . The following are definitions for Family Assessment conclusions:

**Services Needed:** The family is in need of services which may be provided by opening a Family-centered Services case or by referral to a community resource or other support system.

Services Not Needed: The family is not in need of services.

Non-cooperative/Child Safe: The family refuses to cooperate and the worker has been able to document that the child is safe and that there is not a serious risk of abuse/neglect.

For a small number of reports, the above definitions are not applicable. Other conclusions for either investigations or assessments include **Unable to Locate**, **Inappropriate Report**, **Located Out of State** and **Home Schooling**.

#### Methodological:

The following are technical definitions used in the computations of the statistics throughout this report:

**Reported incident:** An allegation of child abuse/neglect made to the hotline which meets the legal definitions for abuse/neglect and for care, custody, and control. A reported incident may involve more than one child and more than one alleged perpetrator.

**Incident conclusion:** The Children's Services worker assigns a conclusion to each child and to each alleged perpetrator involved in an incident. If at least one child is found probable cause, the incident is considered to be found probable cause.

Incident category of abuse/neglect: Up to four categories of abuse/neglect can be assigned to each probable cause child. Each incident may have up to six categories of abuse/neglect because each child may be found probable cause for different types of abuse/neglect. For incidents involving more than one child, each category of abuse/neglect is counted once if at least one child was found probable cause for that category.

**Reported child:** A child named in a reported incident of child abuse/neglect. A child may be reported more than one time during the year, and unless otherwise indicated, counts of children are duplicated in this report.

**Child conclusion:** The Children's Services worker assigns a conclusion to each child involved in an incident. Some children in the report may be found probable cause while others may be unsubstantiated.

Child category of abuse/neglect: Each probable cause child may be assigned up to four categories of abuse/neglect.

Alleged perpetrator: A person named as the perpetrator in a reported incident of child abuse/neglect. An alleged perpetrator may be involved in more than one incident during the year, and unless otherwise indicated, counts of alleged perpetrators are duplicated in this report.

**Alleged perpetrator conclusion:** The Children's Services worker assigns a conclusion to each alleged perpetrator involved in an incident. One perpetrator in a report may be found probable cause while another may be unsubstantiated.

### Reports to Child Abuse/Neglect Hotline

Over the past year, the Child Abuse/Neglect Hotline Unit (CANHU) received 51,180 reports of child abuse/neglect, involving 80,200 children. The CANHU is operated year-round on a 24 hours per day, seven days per week basis by 35 trained and experienced Children's Services workers. Missouri's toll-free number for reporting child abuse/neglect is 1-800-392-3738.

When a call is received at the CANHU, information is analyzed to determine whether:

- the child is under age 18;
- the alleged perpetrator has care, custody and control of the child;
- the alleged abusive or neglectful treatment is having an adverse effect on the child; and
- the report meets the definition of abuse/neglect described in state statutes.

Within moments of receiving a report, the information is forwarded electronically to one of the 114 county offices or the St. Louis City office for investigation. Investigations/assessments must be initiated within 24 hours or immediately when it is determined that the child is in imminent danger. An exception is when the only allegation is educational neglect. In this case, an investigation/assessment must be initiated within 72 hours. Social workers have 30 days to complete their investigations/assessments.

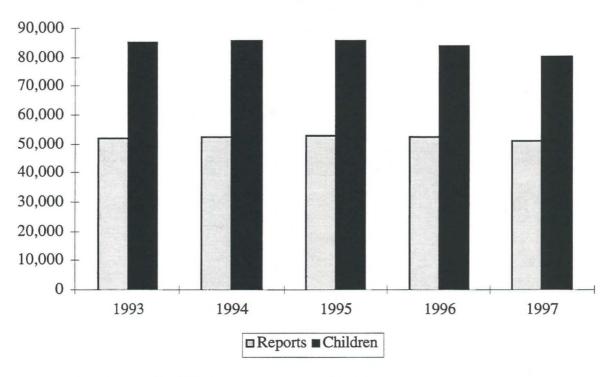

A call to the hotline is referred to as a report or reported incident of child abuse/neglect. A report may involve from one to several children. From 1993 through 1995 reported incidents increased; however, between 1996 and 1997 there was a decrease in both the number of reported incidents and children.

# Incidents and Children Reported to the Child Abuse/Neglect Hotline and Annual Percent Change

|             | Total   | Annual | Total    | Annual |
|-------------|---------|--------|----------|--------|
| <b>Year</b> | Reports | Change | Children | Change |
| 1993        | 52,259  |        | 85,318   |        |
| 1994        | 52,717  | 0.9%   | 85,956   | 0.7%   |
| 1995        | 52,897  | 0.3%   | 85,881   | -0.1%  |
| 1996        | 52,527  | -0.7%  | 83,855   | -2.4%  |
| 1997        | 51,180  | -2.6%  | 80,200   | -4.4%  |

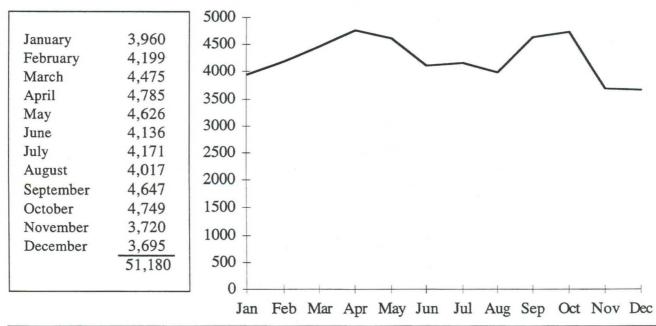

Note: All counts of children are duplicated because a child may be reported more than once during the year.

Incidents and Children Reported to the Child Abuse/Neglect Hotline, 1993-1997

• During 1997, the month with the most reports to the CA/N hotline was April with 4,785 reports, followed by October with 4,749. December had the fewest number of reports with 3,695.

1997 Child Abuse/Neglect Reports, by Month of Report

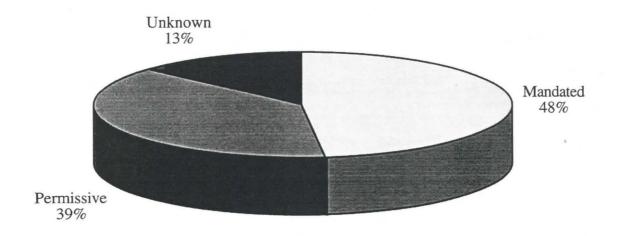

#### Reporters

Reports of child abuse/neglect can be made by persons who are either "mandated" or "permissive" reporters. Mandated reporters are required by state statute to report abuse/neglect when they have reasonable cause to suspect a child has been or is being abused. Mandated reporters include health and education professionals, social workers and foster parents, among others. Permissive reporters are those people not required to report suspected abuse/neglect, such as relatives or neighbors.

• Forty-eight percent (48%) of the reports made in 1997 were made by mandated reporters and thirty-nine percent (39%) were made by permissive reporters.

#### Child Abuse/Neglect Reporters, 1997 by Type of Reporter

RSMo 210.115. Reports of abuse or neglect, who shall make. — When any physician, medical examiner, coroner, dentist, chiropractor, podiatrist, resident, intern, nurse, hospital and clinic personnel (engaged in examination, care or treatment of persons), and other health practitioner, psychologist, mental health professional, social worker, day care center worker or other child care worker, juvenile officer, probation or parole officer, teacher, principal or other school official, Christian Science practitioner, peace officer or law enforcement official, or other person with responsibility for the care of children, has reasonable cause to suspect that a child has been or may be subjected to abuse or neglect or observes a child being subjected to conditions or circumstances which would reasonably result in abuse or neglect, he shall immediately report or cause a report to be made to the division in accordance with the provisions of sections 210.110 to 210.165.

• The most common mandated reporter occupations were social workers, followed by school officials and law enforcement officers.

### Reporters of Child Abuse/Neglect by Occupation, 1997

|   | Number | Percent |
|---|--------|---------|
| Permissive  | 20,946 | 39.0%   |
| Unknown   | 6,983  | 13.0%   |
| Social worker   | 5,876  | 10.9%   |
| Principal or other school official                    | 5,219  | 9.7%    |
| Peace officer or law enforcement official             | 5,078  | 9.4%    |
| Nurse   | 2,315  | 4.3%    |
| Mental health professional                            | 2,176  | 4.0%    |
| Other person with responsibility for care of children | 1,098  | 2.0%    |
| Juvenile officer                                      | 976    | 1.8%    |
| Physician   | 865    | 1.6%    |
| Teacher   | 703    | 1.3%    |
| Day care center or other child care worker            | 592    | 1.1%    |
| Psychologist  | 405    | 0.8%    |
| Foster parents  | 151    | 0.3%    |
| Other hospital/clinic personnel                       | 116    | 0.2%    |
| Probation or parole officer                           | 92     | 0.2%    |
| Other health practitioner                             | 66     | 0.1%    |
| Medical examiner                                      | 28     | 0.1%    |
| Intern  | 24     | 0.0%    |
| Coroner   | 19     | 0.0%    |
| Dentist/Dental hygienist                              | 16     | 0.0%    |
| Christian Science practitioner                        | 6      | 0.0%    |
| Resident  | 5      | 0.0%    |
| Optometrist   | 5      | 0.0%    |
| Chiropractor  | 3      | 0.0%    |
|   | 53,763 | 100.0%  |

Note: Reporters exceed reports because more than one person may report an incident.

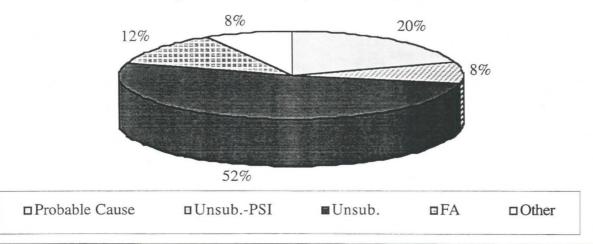

### Child Abuse/Neglect Investigations/Family Assessments

Children's Services workers investigate/assess each report to determine if abuse/neglect is occurring or has occurred and evaluate the family's need for services. Thorough investigations/assessments require hours of interviews and information collection, and usually include the major steps listed below:

- Contacting the reporter, if known, for additional information before proceeding with the investigation;
- Contacting appropriate law enforcement personnel or multidisciplinary team members to request a co-investigation if the report involves sexual abuse or serious physical abuse/neglect;
- Making a determination regarding the safety of the child within 24 hours;
- · Contacting collateral persons;
- Interviewing witnesses;
- Interviewing the non-offending parent;
- Interviewing the alleged perpetrator(s);
- Evaluating and documenting all information collected and observed;
- Determining whether abuse/neglect has or is occurring; and
- Evaluating the family's need for services and making appropriate referrals for needed services.

DFS policy requires completion of investigations/assessments within 30 days. When the Children's Services worker determines that there is probable cause to believe that abuse/neglect has occurred, or is occurring, the family is advised of available services. The family also is offered services when the investigative conclusion is Unsubstantiated-Preventive Services Indicated or when a Family Assessment indicates the need for services.

#### Reported Children by Conclusion 1993 - 1997

Conclusions are as follows:

Probable Cause - Court Adjudicated and Probable Cause

Unsub.-PSI - Unsubstantiated-Preventive Services Indicated

Unsub. - Unsubstantiated

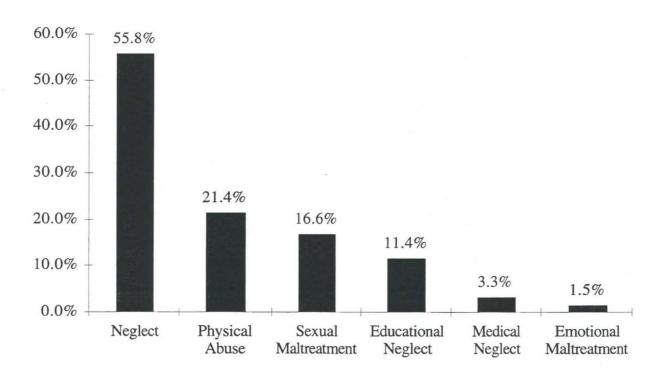

FA - Family Assessment: Services Needed, Services Not Needed, and Non-cooperative/Child Safe

Other - Unable to Locate, Inappropriate Report, Located Out of State and Home Schooling

<sup>\*</sup> The 1997 breakout of reported children of Family Assessment incidents by conclusions can be found in Appendix C on page 48.

During the year, 15,596 children were involved in incidents that were found probable cause for abuse or neglect. When a Children's Services worker determines there is probable cause that abuse/neglect has occurred, each child can be assigned up to four categories of abuse/neglect. As the graph below indicates, the most prevalent category is neglect, followed by physical abuse and sexual maltreatment.

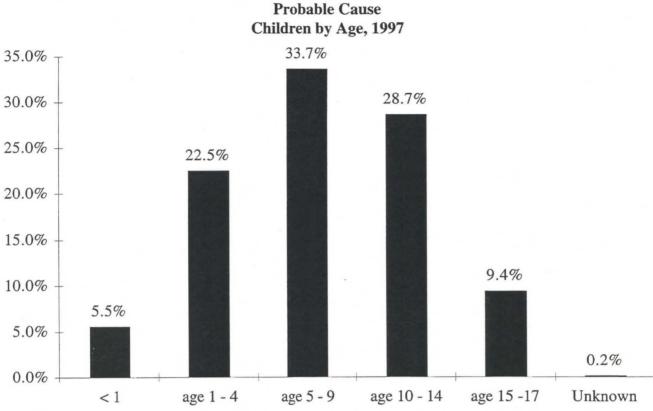

# Probable Cause Children by Category of Abuse/Neglect, 1997

| robable Cause Children by Ca  |        | 3       |
|-------------------------------|--------|---------|
|                               | Number | Percent |
| Neglect                       | 8,710  | 55.8%   |
| Physical Abuse                | 3,332  | 21.4%   |
| Sexual Maltreatment           | 2,582  | 16.6%   |
| <b>Educational Neglect</b>    | 1,771  | 11.4%   |
| Medical Neglect               | 517    | 3.3%    |
| <b>Emotional Maltreatment</b> | 240    | 1.5%    |

Percent is the percentage of total probable cause children. Percent total is greater than 100 because a child may be found probable cause for up to four categories of abuse/neglect.

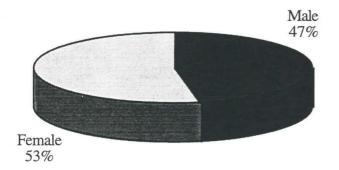

### **Child Demographics**

• The most common age group for probable cause children was 5 - 9 years, followed by ages 10 - 14. Relatively few (5.5%) of probable cause children were less than one year old.

| Probable Cause<br>Children by Age, 1997 |        |         |         |        |         |  |  |
|---|--------|---------|---------|--------|---------|--|--|
| Age                                     | Number | Percent | Age     | Number | Percent |  |  |
| < 1                                     | 856    | 5.5%    | 10      | 891    | 5.7%    |  |  |
| 1                                       | 763    | 4.9%    | 11      | 837    | 5.4%    |  |  |

#### Probable Cause Children by Sex, 1997

• In 1997, forty-seven percent (47%) of the probable cause children were male, and fifty-three percent (53%) were female.

#### Probable Cause Children by Race, 1997

• Seventy percent (70%) of probable cause children were white and twenty-eight percent (28%) were black.

\* Other includes Hispanic, Oriental, American Indian, Other and Unknown.

### Sex and Race of Probable Cause Children, 1997

|         | Number | Percent |                 | Number | Percent |
|---------|--------|---------|-----------------|--------|---------|
| Male    | 7,339  | 47.1%   | White           | 10,884 | 69.8%   |
| Female  | 8,256  | 52.9%   | Black           | 4,433  | 28.4%   |
| Unknown | 1      | 0.0%    | Hispanic        | 123    | 0.8%    |

Information gathered during an investigation of child abuse/neglect can help identify factors which place a child at risk for abuse/neglect. In addition to establishing an investigative conclusion for each child, Children's Services workers may designate up to four **Observed Family Characteristics** for each reported incident. For families where abuse/neglect is found, these characteristics may indicate which services could help prevent the reoccurrence of abuse/neglect. It is important to note that these are not absolute counts. For instance, a problem with alcohol or other drugs may be difficult to detect during the course of an investigation.

• The family characteristics reported in 1997 are similar to those reported during the last five years. Over thirty-five percent (35%) of the probable cause incidents involved single parent families. Thirty-one (31%) of the families involved in probable cause incidents were amenable to services. The top twenty family characteristics are listed below.

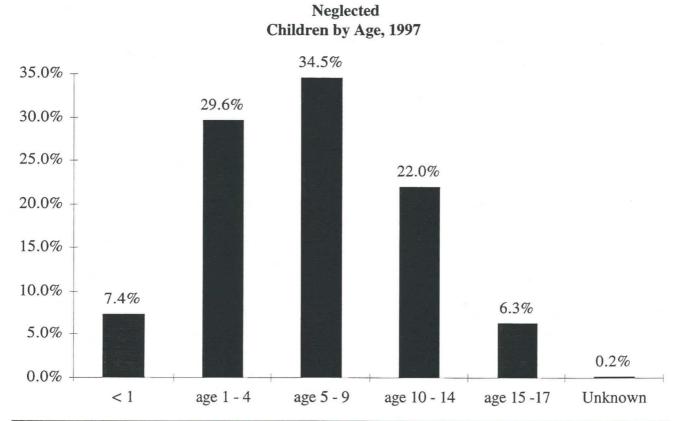

# Characteristics of Families Involved in Probable Cause Incidents, 1997 (Non-institutional incidents only)

|  | Number | Percent |
|--|--------|---------|
| Single parent household                    | 3,615  | 35.6%   |
| Amenable to services                       | 3,185  | 31.4%   |
| Lack of parenting skills                   | 2,927  | 28.8%   |
| Adequate living conditions                 | 2,853  | 28.1%   |
| Stable family relationship/household       | 1,225  | 12.1%   |
| Appropriate parenting skills               | 1,059  | 10.4%   |
| Heavy continuous child care responsibility | 897    | 8.8%    |
| Insufficient/misuse of income              | 856    | 8.4%    |
| Domestic Violence                          | 738    | 7.3%    |
| Other drug related problem(s)              | 726    | 7.1%    |
| Recent/frequent relocation                 | 693    | 6.8%    |
| Alcohol related problem(s)                 | 652    | 6.4%    |
| Marital Problems                           | 611    | 6.0%    |
| Recent loss/addition to household members  | 548    | 5.4%    |
| New baby in home/pregnancy                 | 471    | 4.6%    |
| Crowded Living Conditions                  | 445    | 4.4%    |
| Social isolation                           | 319    | 3.1%    |
| Role reversal                              | 318    | 3.1%    |
| Extended family support system             | 312    | 3.1%    |
| Loss of employment                         | 279    | 2.7%    |

Percent is the percentage of total probable cause incidents. Percent total is greater than 100 because up to four family characteristics may be reported for each incident.

#### **Neglect**

During the year 8,710 children were found probable cause under the category of neglect. Among these children, the most common age group was 5 - 9 years, followed by ages 1 - 4.

|     | Neglected<br>Children by Age, 1997 |         |         |        |         |  |  |  |  |
|-----|------------------------------------|---------|---------|--------|---------|--|--|--|--|
| Age | Number                             | Percent | Age     | Number | Percent |  |  |  |  |
| < 1 | 641                                | 7.4%    | 10      | 486    | 5.6%    |  |  |  |  |
| 1   | 619                                | 7.1%    | 11      | 378    | 4.3%    |  |  |  |  |
| 2   | 631                                | 7.2%    | 12      | 368    | 4.2%    |  |  |  |  |
| 3   | 679                                | 7.8%    | 13      | 354    | 4.1%    |  |  |  |  |
| 4   | 646                                | 7.4%    | 14      | 332    | 3.8%    |  |  |  |  |
| 5   | 680                                | 7.8%    | 15      | 283    | 3.2%    |  |  |  |  |
| 6   | 652                                | 7.5%    | 16      | 202    | 2.3%    |  |  |  |  |
| 7   | 632                                | 7.3%    | 17      | 64     | 0.7%    |  |  |  |  |
| 8   | 539                                | 6.2%    | Unknown | 18     | 0.2%    |  |  |  |  |
| 9   | 506                                | 5.8%    |         | 8,710  | 100.0%  |  |  |  |  |

Note: This is a duplicated count of children because a child may be found probable cause for neglect more than once during the year.

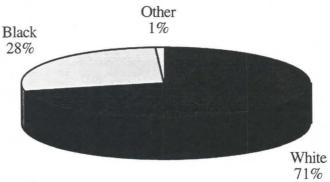

#### Neglected Children by Sex, 1997

• Fifty-one percent (51%) of neglected children were male and forty-nine percent (49%) were female.

 Seventy-one percent (71%) of neglected children were white and twenty-eight percent (28%) were black.

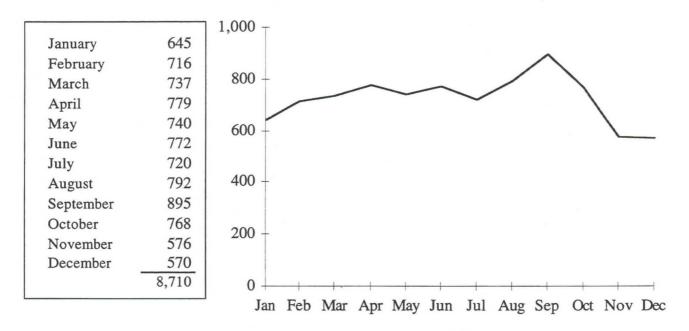

\* Other includes Hispanic, Oriental, American Indian, Other and Unknown.

### Sex and Race of Neglected Children, 1997

|         | Number | <b>Percent</b> |                 | Number | Percent |

|         |        |                |                 | 8,710  | 100.0%  |

#### Neglected Children by Month of Report, 1997

 September had the highest incidence of child neglect with 895 children. The number of neglected children fell during the autumn months, with the low for the year occurring in December with 570 children.

In addition to assigning categories of abuse or neglect, a Children's Services worker may also describe up to five specific findings of abuse. For neglected children the most frequent worker descriptions are those typically associated with neglect, such as a lack of supervision and unsanitary living conditions. The ten most frequently reported worker findings for neglected children are listed below.

| Worker Fir | dings for | Neglected | Children. | 1997 |
|------------|-----------|-----------|-----------|------|
|------------|-----------|-----------|-----------|------|

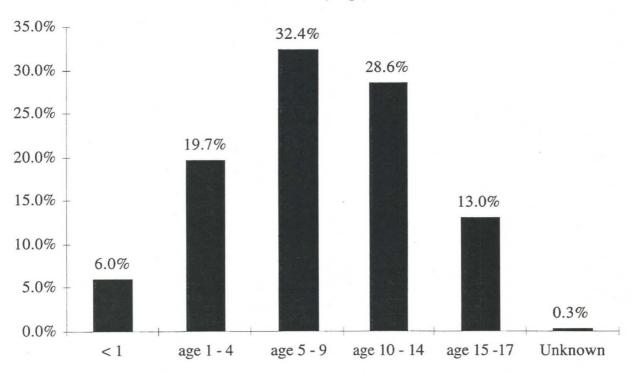

|  | <u>Number</u> | <b>Percent</b> |
|--|---------------|----------------|
| Lack of supervision                      | 4,517         | 51.9%          |
| Unsanitary living conditions             | 2,035         | 23.4%          |
| Unsafe/inadequate shelter                | 1,034         | 11.9%          |
| Poor hygiene (health threatening)        | 900           | 10.3%          |
| Other abuse/neglect                      | 675           | 7.7%           |
| Parents indifferent to educational needs | 575           | 6.6%           |
| Rejection through indifference           | 544           | 6.2%           |
| Lack of food                             | 520           | 6.0%           |
| Locking in or out, expelling from home   | 305           | 3.5%           |
| Untreated illness/injury                 | 299           | 3.4%           |

Percent is the percentage of total neglected children. Percent total is greater than 100 because a worker may list up to five specific findings for each child.

### **Physical Abuse**

During the year 3,332 children were found probable cause under the category of physical abuse. Among these children the most common age group was 5 - 9 years, followed by ages 10 - 14.

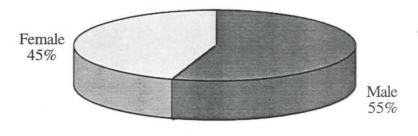

| Physically Abused<br>Children by Age, 1997 |        |         |         |        |         |  |
|--|--------|---------|---------|--------|---------|--|
| Age  | Number | Percent | Age     | Number | Percent |  |
| < 1  | 199    | 6.0%    | 10      | 170    | 5.1%    |  |
| 1  | 137    | 4.1%    | 11      | 165    | 5.0%    |  |
| 2  | 155    | 4.7%    | 12      | 190    | 5.7%    |  |
| 3  | 180    | 5.4%    | 13      | 221    | 6.6%    |  |
| 4  | 184    | 5.5%    | 14      | 208    | 6.2%    |  |
| 5  | 222    | 6.7%    | 15      | 210    | 6.3%    |  |
| 6  | 236    | 7.1%    | 16      | 172    | 5.2%    |  |
| 7  | 225    | 6.8%    | 17      | 52     | 1.6%    |  |
| 8  | 196    | 5.9%    | Unknown | 10     | 0.3%    |  |
| 9  | 200    | 6.0%    |         | 3,332  | 100.0%  |  |

Note: This is a duplicated count of children because a child may be found probable cause for physical abuse more than one time during the year.

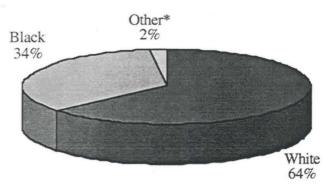

Physically Abused Children by Sex, 1997

• Fifty-five percent (55%) of physically abused children were male and forty-five percent (45%) were female.

### Physically Abused Children by Race, 1997

• Sixty-four percent (64%) of physically abused children were white and thirty-four percent (34%) were black.

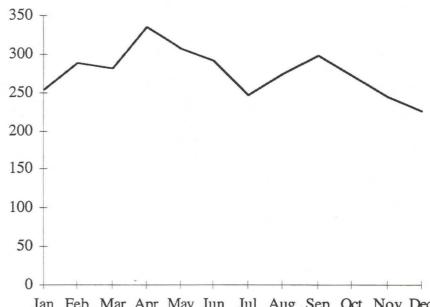

\* Other includes Hispanic, Oriental, American Indian, Other and Unknown.

| Sex and | Race of | Physically | Abused | Children, | 1997 |

| October   | 273   |
| November  | 246   |
| December  | 227   |
|           | 3,332 |

Jan Feb Mar Apr May Jun Jul Aug Sep Oct Nov Dec

April had the highest incidence of physically abused children with 336. The number of physically abused children decreased during the spring to mid-summer. The numbers increased again in August and September before declining sharply during the months of October through December.

For physically abused children, the most frequently reported worker findings were bruises, welts or red marks and other physical abuse or injury. Lack of supervision is also cited quite frequently, suggesting that neglect may occur in some abusive situations. The ten most often reported worker findings for physically abused children are listed below.

| XX7 I    | 172 - 12 | C   | DI!II      | A 1 J  | Child     | 1007 |
|----------|----------|-----|------------|--------|-----------|------|
| vv orker | ringings | IOL | Physically | Abusea | Children, | 1997 |

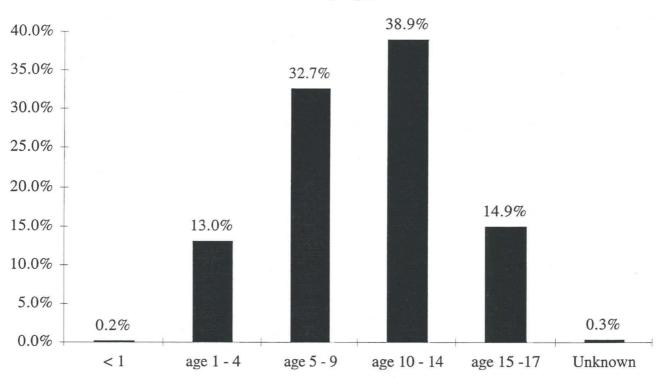

|                                    | <b>Number</b> | Percent |
|------------------------------------|---------------|---------|
| Bruises, welts, red marks          | 2,099         | 63.0%   |
| Other physical abuse or injury     | 773           | 23.2%   |
| Abrasions, lacerations             | 385           | 11.6%   |
| Lack of supervision                | 296           | 8.9%    |
| Other abuse/neglect                | 243           | 7.3%    |
| Wounds, cuts, punctures            | 169           | 5.1%    |
| Blaming, verbal abuse, threatening | 123           | 3.7%    |
| Fractures (other than skull)       | 90            | 2.7%    |
| Fondling/touching                  | 80            | 2.4%    |
| Burns, scalding                    | 72            | 2.2%    |

Percent is the percentage of all physically abused children. Percent total is greater than 100 because a worker may list up to five specific findings for each child.

#### **Sexual Maltreatment**

During the year 2,582 children were found probable cause under the category of sexual maltreatment. Among these children the most common age group was 10 - 14 years, followed by ages 5 - 9.

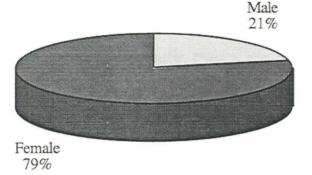

|     |        | Sexually MacChildren by |         |        |         |
|-----|--------|-------------------------|---------|--------|---------|
| Age | Number | Percent                 | Age     | Number | Percent |
| < 1 | 4      | 0.2%                    | 10      | 151    | 5.8%    |
| 1   | 10     | 0.4%                    | 11      | 190    | 7.4%    |
| 2   | 49     | 1.9%                    | 12      | 204    | 7.9%    |
| 3   | 122    | 4.7%                    | 13      | 226    | 8.8%    |
| 4   | 155    | 6.0%                    | 14      | 234    | 9.1%    |
| 5   | 171    | 6.6%                    | 15      | 180    | 7.0%    |
| 6   | 177    | 6.9%                    | 16      | 148    | 5.7%    |
| 7   | 168    | 6.5%                    | 17      | 57     | 2.2%    |
| 8   | 158    | 6.1%                    | Unknown | 8      | 0.3%    |
| 9   | 170    | 6.6%                    |         | 2,582  | 100.0%  |

Note: This is a duplicated count of children because a child may be found probable cause for sexual maltreatment more than one time during the year.

Sexually Maltreated Children by Sex, 1997

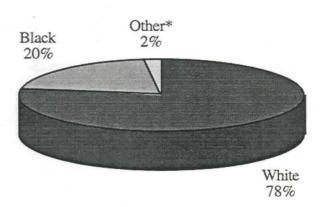

• Unlike neglected and physically abused children, where approximately half were male and half were female, the majority (79%) of sexually maltreated children were female.

Sexually Maltreated Children by Race, 1997

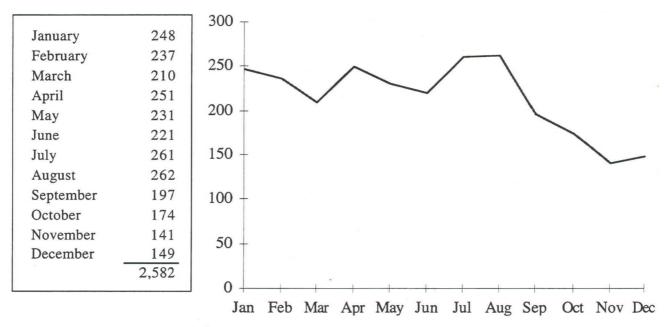

Sexually Maltreated Children by Race, 1997

 Seventy-eight percent (78%) of sexually maltreated children were white and twenty percent (20%) were black.

|        | Number | Percent |                 | Number | Percen |

#### Sexually Maltreated Children by Month of Report, 1997

August had the highest incidence of sexually maltreated children with 262. The number of sexually
maltreated children fluctuated throughout the year before falling to the low for the year in November
with 141.

For sexually maltreated children, the most frequently reported worker finding was fondling or touching. As with the physically abused children, lack of supervision is also cited quite frequently. This suggests that neglect may also occur in some situations of sexual abuse. The ten most often reported worker findings for sexually maltreated children are listed below.

| <b>Worker Findings</b> | C   | C 11     | B # - 14 4 - J | CITI      | 1007 |
|------------------------|-----|----------|----------------|-----------|------|
| worker ringings        | TOP | Sexualiv | Viaitreated    | Children. | 199/ |
|                        |     |          |                |           |      |

|                                | Number | <b>Percent</b> |
|--------------------------------|--------|----------------|
| Fondling/touching              | 1,710  | 66.2%          |
| Other sexual abuse             | 730    | 28.3%          |
| Oral sex, sodomy               | 627    | 24.3%          |
| Intercourse                    | 422    | 16.3%          |
| Digital penetration            | 313    | 12.1%          |
| Lack of supervision            | 282    | 10.9%          |
| Inappropriately giving drugs   | 57     | 2.2%           |
| Bruises, welts, red marks      | 55     | 2.1%           |
| Pornography                    | 52     | 2.0%           |
| Other physical abuse or injury | 44     | 1.7%           |

Percent is the percentage of all sexually maltreated children. Percent total is greater than 100 because a worker may list up to five specific findings for each child.

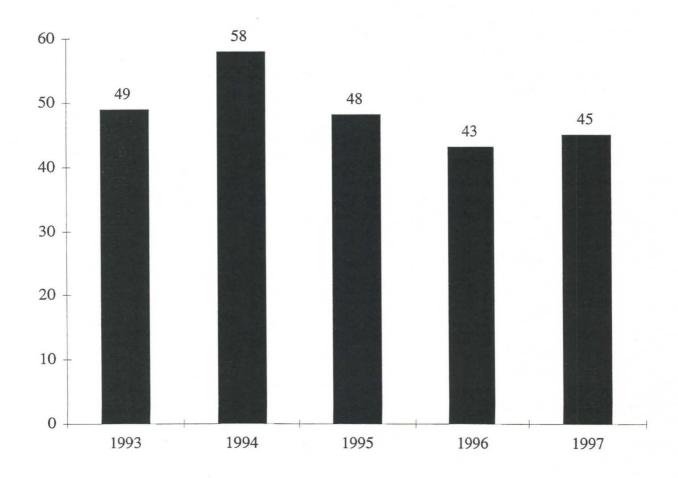

#### **Child Abuse/Neglect Fatalities**

The number of probable cause fatalities in 1997 increased slightly from 1996. Forty-five (45) children died as a result of child abuse/neglect in 1997, compared to forty-three (43) in 1996.

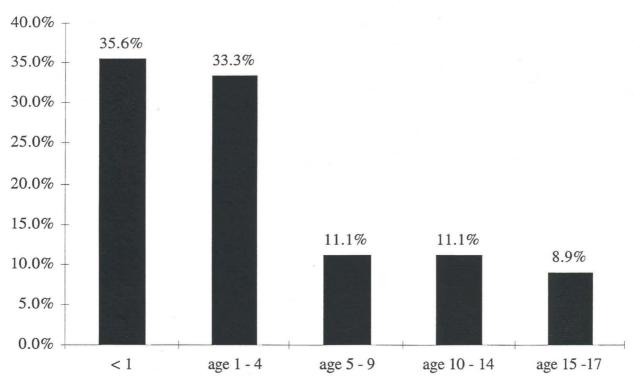

These figures only represent children whose deaths are brought to the attention of DFS. Recent media attention, both on a state and national level, has focused on children whose deaths were never brought to the attention of the proper authorities despite the suspicious nature of their deaths. When fatal child abuse goes undetected, other children in the home and community remain at risk.

The number of fatalities reported during any given year may change as a result of pending investigations, changes in conclusions, and deaths not reported in a timely manner.

Probable Cause Fatalities 1993 - 1997

# Probable Cause Fatalities by Age of Child, 1997

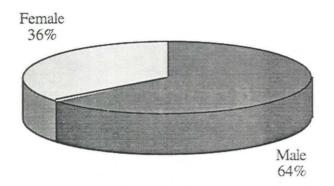

• Of the 45 children involved in probable cause fatalities during 1997, the majority were under 5 years of age.

|     |        | Probable Cau<br>by Age of C |         |        |         |
|-----|--------|-----------------------------|---------|--------|---------|
| Age | Number | Percent                     | Age     | Number | Percent |
| < 1 | 16     | 35.6%                       | 10      | 1      | 2.2%    |
| 1   | 4      | 8.9%                        | 11      | 0      | 0.0%    |
| 2   | 4      | 8.9%                        | 12      | 3      | 6.7%    |
| 3   | 4      | 8.9%                        | 13      | 1      | 2.2%    |
| 4   | 3      | 6.7%                        | 14      | 0      | 0.0%    |
| 5   | 2      | 4.4%                        | 15      | 2      | 4.4%    |
| 6   | 0      | 0.0%                        | 16      | 1      | 2.2%    |
| 7   | 1      | 2.2%                        | 17      | 1      | 2.2%    |
| 8   | 1      | 2.2%                        | Unknown | 0      | 0.0%    |
| 9   | 1      | 2.2%                        |         | 45     | 100%    |

Note: The number of probable cause fatalites represents an unduplicated count of children.

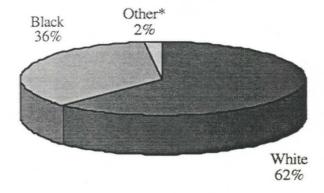

# Probable Cause Fatalities by Sex, 1997

Sixty-four percent (64%) of children involved in probable cause fatalities were male and thirty-six percent (36%) were female.

• Sixty-two percent (62%) of children involved in probable cause fatalities were white and thirty-six (36%) were black.

# Probable Cause Fatalities by Race, 1997

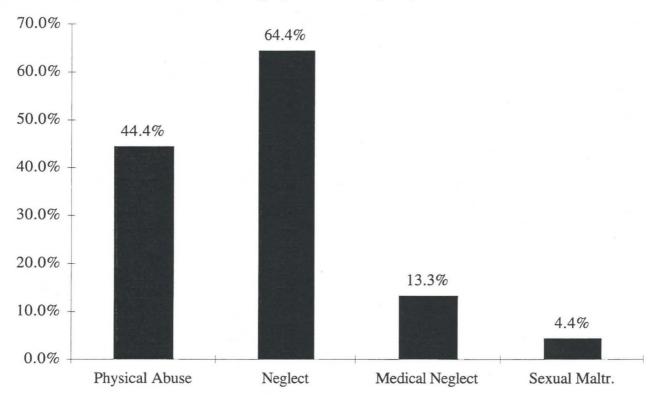

\* Other includes Hispanic, Oriental, American Indian, Other and Unknown.

### Sex and Race of Probable Cause Fatalities, 1997

|        | Number | Percent |                 | Number | Percent |
|--------|--------|---------|-----------------|--------|---------|
| Male   | 29     | 64.4%   | White           | 28     | 62.2%   |
| Female | 16     | 35.6%   | Black           | 16     | 35.6%   |
|        | 45     | 100.0%  | Hispanic        | 1      | 2.2%    |
|        |        |         | Oriental        | 0      | 0.0%    |
|        |        |         | American Indian | 0      | 0.0%    |
|        |        |         | Other           | 0      | 0.0%    |
|        |        |         |                 | 45     | 100.0%  |

# Probable Cause Fatalities by Category of Abuse/Neglect, 1997

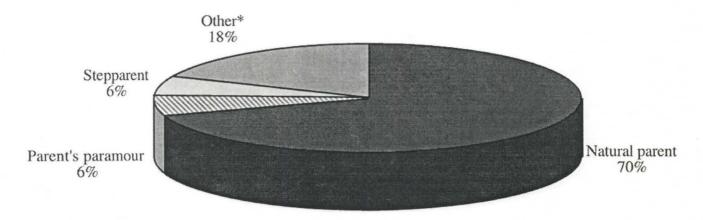

• A majority, sixty-four percent (64%), of the CA/N fatalities were caused, at least in part, by neglect. Physical abuse was present in forty-four percent (44%) of the CA/N fatalities. Medical neglect and sexual maltreatment also contributed to some child fatalities.

|                 | Cause Fatalitie<br>f Abuse/Neglec |         |  |
|-----------------|-----------------------------------|---------|--|
|                 | Number                            | Percent |  |
| Neglect         | 29                                | 64.4%   |  |
| Physical Abuse  | 20                                | 44.4%   |  |
| Medical Neglect | 6                                 | 13.3%   |  |
| Sexual Maltr.   | 2                                 | 4.4%    |  |

Percent is the percentage of total probable cause fatalities. Percent total is greater than 100 because a child may be found probable cause for up to four categories of abuse/neglect.

#### Relationship of Probable Cause Perpetrator to Probable Cause Child, 1997

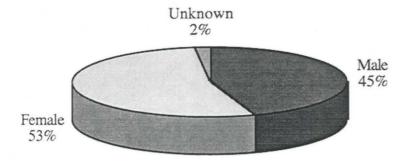

- \* Other includes the following: Grandparent, Sibling, Institutional staff, Child care provider, Foster parent, Adoptive parent, School personnel, Spouse/paramour, Other relative and Unknown.
- The most common type of alleged perpetrator was the natural parent of the child.

### Alleged Perpetrators and Probable Cause Perpetrators by Relationship to Child, 1997

|                     | Alleged             | <b>Probable Cause</b> | <b>Percent Found</b>  |
|---------------------|---------------------|-----------------------|-----------------------|
|                     | <b>Perpetrators</b> | <b>Perpetrators</b>   | <b>Probable Cause</b> |
| Natural parent      | 70,188              | 13,157                | 18.7%                 |
| Parent's paramour   | 5,932               | 1,133                 | 19.1%                 |
| Stepparent          | 5,109               | 1,010                 | 19.8%                 |
| Unknown             | 3,731               | 713                   | 19.1%                 |
| Other               | 3,122               | 1,133                 | 36.3%                 |
| Grandparent         | 2,231               | 391                   | 17.5%                 |
| Other relative      | 2,092               | 599                   | 28.6%                 |
| Institutional staff | 783                 | 121                   | 15.5%                 |
| Foster parent       | 719                 | 110                   | 15.3%                 |
| Sibling             | 684                 | 127                   | 18.6%                 |
| Child care provider | 646                 | 103                   | 15.9%                 |
| School personnel    | 623                 | 52                    | 8.3%                  |
| Adoptive parent     | 366                 | 54                    | 14.8%                 |
| Spouse/paramour     | 40                  | 15                    | 37.5%                 |
| Self                | 24                  | 7                     | 29.2%                 |

Note: Total counts of perpetrators exceed total counts of children because a child may have more than one perpetrator.

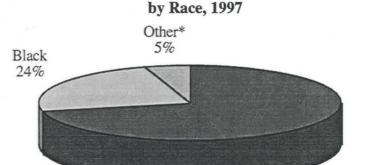

#### Probable Cause Perpetrators by Sex, 1997

• Fifty-three percent (53%) of all probable cause perpetrators were female. Forty-five percent (45%) were male.

White 71%

• The race of probable cause perpetrators is similar to that of probable cause children. Seventy-one percent (71%) were white and twenty-four percent (24%) were black.

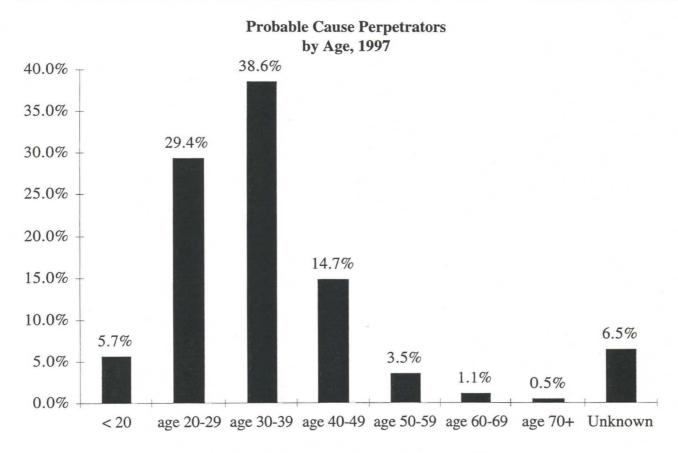

**Probable Cause Perpetrators** 

\* Other includes Hispanic, Oriental, American Indian, Other and Unknown.

### Sex and Race of Probable Cause Perpetrators, 1997

|         | Number | <b>Percent</b> |                 | Number | Percent |
|---------|--------|----------------|-----------------|--------|---------|
| Male    | 5,471  | 44.5%          | White           | 8,750  | 71.1%   |
| Female  | 6,510  | 52.9%          | Black           | 2,906  | 23.6%   |
| Unknown | 326    | 2.6%           | Hispanic        | 102    | 0.8%    |
|         | 12,307 | 100.0%         | Oriental        | 35     | 0.3%    |
|         |        |                | American Indian | 28     | 0.2%    |
|         |        |                | Other           | 46     | 0.4%    |
|         |        |                | Unknown         | 440    | 3.6%    |
|         |        |                | -               | 12,307 | 100.0%  |

Note: This is a duplicated count of perpetrators. An alleged perpetrator may be found probable cause for more than one incident during the year.

• Sixty-eight percent (68%) of all perpetrators were between 20 and 39 years of age.

|           | Cause Perpetra<br>by Age, 1997 |         |
|-----------|--------------------------------|---------|
|           | Number                         | Percent |
| < 20      | 706                            | 5.7%    |
| age 20-29 | 3,616                          | 29.4%   |

| age 70+   | 59                             | 0.5%    |
| Unknown   | 795                            | 6.5%    |
|           | 12,307                         | 100.0%  |

Children's Services Workers may indicate up to four **Observed Perpetrator Characteristics** for each probable cause perpetrator of child abuse/neglect. These characteristics are used to develop client profiles and help illustrate which services may be beneficial to a family. For instance, if perpetrators have unrealistic expectations of children, providing information on child development can help teach more appropriate disciplinary techniques.

• In 1997, the most prevalent perpetrator characteristic was having unrealistic expectations of a child, which was the case for approximately thirty-five percent (35%) of the probable cause perpetrators. Social workers described twenty-one percent (21%) of the perpetrators as having no apparent mental or emotional disturbance and eighteen percent (18%) as being unemployed.

#### Characteristics of Probable Cause Perpetrators, 1997

|  | Number | <b>Percent</b> |
|--|--------|----------------|
| Unrealistic expectations of child            | 4,313  | 35.0%          |
| No apparent mental/emotional disturbance     | 2,520  | 20.5%          |
| Unemployed                                   | 2,265  | 18.4%          |
| Immaturity                                   | 2,036  | 16.5%          |
| Loss of control during discipline            | 1,791  | 14.6%          |
| Amenable to services                         | 1,662  | 13.5%          |
| Low self-esteem                              | 1,499  | 12.2%          |
| Alcohol-related problem(s)                   | 1,301  | 10.6%          |
| Other drug-related problem(s)                | 1,279  | 10.4%          |
| Mental/emotional disturbance                 | 904    | 7.3%           |
| No one to call on in time of crisis          | 900    | 7.3%           |
| Adequate support system                      | 781    | 6.3%           |
| History of criminal activity                 | 633    | 5.1%           |
| Pattern of violent behavior                  | 565    | 4.6%           |
| Parental history of abuse/neglect as a child | 539    | 4.4%           |
| Less than high school education              | 484    | 3.9%           |
| Institutional report/unknown perpetrator     | 261    | 2.1%           |
| High school education or higher              | 243    | 2.0%           |
| Mental retardation                           | 138    | 1.1%           |
| Illness                                      | 90     | 0.7%           |
| Incapacity due to physical handicap          | 83     | 0.7%           |
| Other  | 42     | 0.3%           |

Percent is the percentage of total probable cause perpetrators. Percent total is greater than 100 because a worker may list up to four characteristics for each perpetrator.

During the 1993-94 legislative session the General Assembly passed, and Governor Carnahan signed into law, Senate Bill 595. The legislation became law on August 28, 1994. The underlying principle of the Child Protection System (CPS), as embodied in Senate Bill 595, is that children and their families coming to the attention of the Division of Family Services have different intervention needs and require flexible responses from DFS and the community in order to protect children and meet the needs of the family.

This legislation established five demonstration areas to assess the impact of utilizing a multiple response when there is a report of child abuse/neglect. Senate Bill 595 required DFS to investigate some reports of abuse/neglect, but allowed for a Family Assessment in reports that would not be considered, if true, a criminal violation.

The sponsors and supporters of Senate Bill 595 identified and focused on two primary goals of the CPS system. Those goals are to: (1) Ensure the protection of children from abuse or neglect; and (2) Provide this protection to the child and family in the most efficient and effective manner possible within the framework of state, community and family resources.

Findings from the independent evaluation of the demonstration have been published. The results of the evaluation were used to assess the success of the demonstration as well as to identify any needed changes in procedure. In January 1998 DFS presented a recommendation to the Missouri Legislature for expansion of this approach statewide. In May 1997, legislative approval was granted for expansion of Senate Bill 595 to three additional areas of the state. Legislative approval for statewide expansion was granted in May 1998. Research findings of the demonstration reflect that the identified goals of the CPS were supported by the new approach. Pilot sites experienced increased cooperation and satisfaction with DFS by families, increased children's safety in a more timely manner, and there was a greater utilization of community resources.

The five demonstration areas are:

#### St. Louis Metropolitan Demonstration Area:

Identified communities within St. Louis County - University City, Maplewood and the 63132 zip code.

Identified communities within St. Louis City - The neighborhood surrounding Sigel Community Center, including zip codes 63104 and 63118.

St. Charles County (11th Judicial Circuit)

Jefferson County (23rd Judicial Circuit)

Washington County Demonstration Area (Part of the 24th Judicial Circuit)

#### South Central Demonstration Area:

Phelps, Pulaski, Texas and Maries Counties (25th Judicial Circuit)

#### Central Demonstration Area:

Boone and Callaway Counties (13th Judicial Circuit)

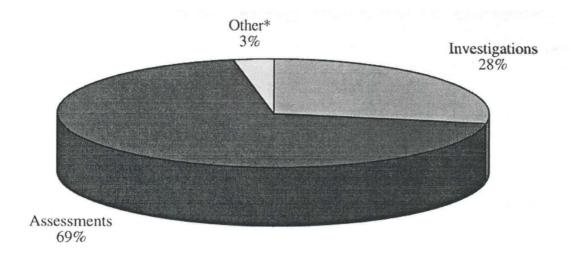

#### Southwest Demonstration Area:

Barton, Cedar and Dade Counties (Part of the 28th Judicial Circuit) Jasper County (29th Judicial Circuit) Newton County (Part of the 40th Judicial Circuit)

In summary, this delivery approach is designed to focus the investigation efforts of DFS and law enforcement on reports that indicate a crime had been committed. The remaining families are served through Family Assessments in order to address any service needs. Families who are investigated and those who receive the Family Assessment response both receive prompt and effective delivery of services in order to address their needs.

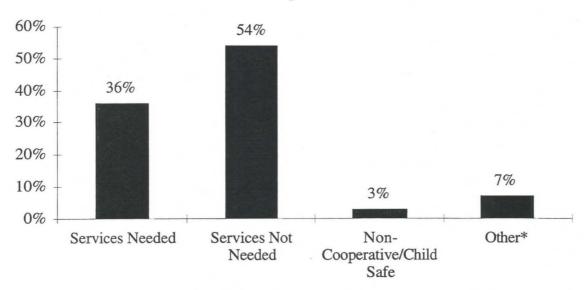

Track assignments determine which investigative mode, assessment or investigation, the hotline call will take. Reports that initially receive a track assignment of assessment may not, however, be concluded assessment (i.e., services needed, services not needed, or non-cooperative/child safe). Assessment tracks not concluded as such may have conclusions of unable to locate, located out of state, or home schooling. Therefore, the statistics on pages 33, 34, and 38 are not based on 6,082, the number of reports concluded assessment, but on the number of reports assigned a track of assessment. The number of reports during 1997 assigned a track of assessment equaled 6,541.

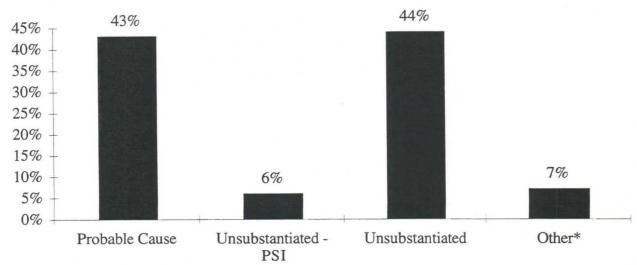

<sup>\*</sup> Includes incidents with the conclusion of Inappropriate Report and incidents in which the conclusions are pending and the final response assignment could not be determined.

# Child Protection System Demonstration (SB 595) Family Assessments by Conclusion During 1997

- Of the 6,541 reports assigned to the family assessment track, thirty-six percent (36%) of the families were in need of services, fifty-four percent (54%) did not need services, and only three percent (3%) were non-cooperative.
- Of the 2,680 reports assigned to the investigative track in the demonstration area, forty-three percent (43%) were found probable cause. The statewide substantiation rate was twenty percent (20%).

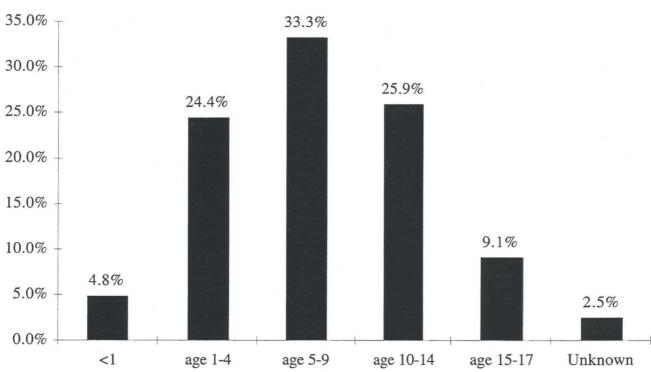

# Child Protection System Demonstration (SB 595) Investigations by Conclusion During 1997

\* Other includes Unable to Locate, Inappropriate Report, Located Out of State and Home Schooling (based on response assignment)

#### **Child Demographics**

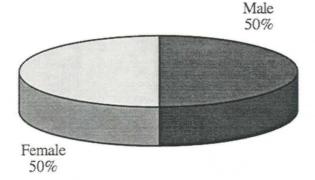

• During the year 9,613 children were involved in reports screened family assessment. The most common age group for these children was 5 - 9 years, followed by ages 10 - 14. Relatively few (4.8%) children on family assessment reports were less than one year old.

#### Family Assessment Children by Sex, 1997

• In 1997, there was approximately an even fifty percent (50%) split of male and female family assessment children.

Eighty percent (80%) of family assessment children were white and eighteen percent (18%) were black.

**Family Assessment**

80%

• For the Family Assessments where the worker concluded that services were required, a total of 5,298 service needs were identified, the most frequent of which was mental health services. Mental health services were accessed in approximately thirty-seven percent (37%) of the cases. This was followed by parenting classes, which were utilized by twenty-seven percent (27%) of the cases. The fifteen most frequently used services are listed below.

# Service Needs for Interventions Concluded as Needing Services During 1997

|  | Number | <b>Percent</b> |
|--|--------|----------------|
| Mental health services                           | 866    | 36.6%          |
| Parenting classes/education/household management | 645    | 27.2%          |
| Child care                                       | 441    | 18.6%          |
| Health services                                  | 390    | 16.5%          |
| Juvenile/family court services                   | 272    | 11.5%          |
| Shelter  | 263    | 11.1%          |
| Employment services                              | 257    | 10.9%          |
| Educational services                             | 245    | 10.4%          |
| Substance abuse treatment                        | 193    | 8.2%           |
| Financial assistance                             | 183    | 7.7%           |
| Domestic violence services                       | 164    | 6.9%           |
| Assistance with utilities                        | 158    | 6.7%           |
| Adequate food                                    | 151    | 6.4%           |
| Transportation                                   | 137    | 5.8%           |
| Other  | 132    | 5.6%           |

Percent is the percentage of all interventions where services were needed. Percent total is greater than 100 because up to 20 service needs may be reported for each intervention.

The goals of the family assessment approach are to assure child safety, address the strengths of the family and to identify and treat the family's needs. Services and supports for families are designed to build on the strengths and resources of families and communities. In keeping with this philosophy, the list of **Observed Family Characteristics** was expanded to include more strength-based characteristics. Some of the new characteristics are extended family support systems, problem-solving skills and good physical/mental health.

• In fifty-six percent (56%) of the assessments, the families had adequate living conditions. Forty-two percent (42%) of the assessments involved single parent households. Other frequently cited characteristics include amenable to services, appropriate parenting skills, extended family support system, and stable family relationships. The top 25 characteristics are listed below.

#### Child Protection System Demonstration (SB 595) Characteristics of Families Involved in Family Assessments During 1997

|  | Number | <b>Percent</b> |
|--|--------|----------------|
| Adequate living conditions                 | 3,695  | 56.5%          |
| Single parent household                    | 2,778  | 42.5%          |
| Amenable to services                       | 2,135  | 32.6%          |
| Appropriate parenting skills               | 1,761  | 26.9%          |
| Extended family support system             | 1,650  | 25.2%          |
| Stable family relationship/household       | 1,624  | 24.8%          |
| Problem-solving skills                     | 981    | 15.0%          |
| Lack of parenting skills                   | 846    | 12.9%          |
| Heavy continuous child care responsibility | 814    | 12.4%          |
| Insufficient/misuse of income              | 622    | 9.5%           |
| Community/cultural support                 | 617    | 9.4%           |
| Marital problems                           | 590    | 9.0%           |
| Recent/frequent relocation                 | 579    | 8.9%           |
| Recent loss/addition to household members  | 555    | 8.5%           |
| Appropriate child development knowledge    | 538    | 8.2%           |
| No history of violence                     | 505    | 7.7%           |
| Good physical/mental health                | 488    | 7.5%           |
| New baby in home/pregnancy                 | 412    | 6.3%           |
| Domestic violence                          | 398    | 6.1%           |
| Crowded living conditions                  | 382    | 5.8%           |
| Manages finances well                      | 372    | 5.7%           |
| Stable marriage                            | 345    | 5.3%           |
| Loss of employment                         | 331    | 5.1%           |
| Alcohol related problem(s)                 | 316    | 4.8%           |
| Other drug related problem(s)              | 246    | 3.8%           |

Percent is the percentage of total interventions. Percent total is greater than 100 because up to 15 family characteristics may be reported for each intervention.

- The characteristics for families involved in investigations in the multiple response demonstration areas are similar in rank to those of families in the assessment response. In forty-three percent (43%) of the investigations, the families had adequate living conditions. Amenable to services, single parent household, appropriate parenting skills, and stable family relationships were also cited frequently.
- Investigations had a higher percentage (20%) of families with a lack of parenting skills, than did intervention families (13%). Investigated families had a lower percentage (13%) of families with extended support systems than did assessment families (25%). The top 25 characteristics are listed below.

#### Child Protection System Demonstration (SB 595) Characteristics of Families Involved in Investigations During 1997

|  | Number | Percent |
|--|--------|---------|
| Adequate living conditions                 | 1,160  | 43.3%   |
| Amenable to services                       | 1,078  | 40.2%   |
| Single parent household                    | 1,025  | 38.2%   |
| Appropriate parenting skills               | 702    | 26.2%   |
| Stable family relationship/household       | 627    | 23.4%   |
| Lack of parenting skills                   | 539    | 20.1%   |
| Extended family support system             | 342    | 12.8%   |
| Heavy continuous child care responsibility | 221    | 8.2%    |
| Domestic violence                          | 204    | 7.6%    |
| Marital problems                           | 197    | 7.4%    |
| Insufficient/misuse of income              | 191    | 7.1%    |
| Recent/frequent relocation                 | 180    | 6.7%    |
| Problem-solving skills                     | 176    | 6.6%    |
| Recent loss/addition to household members  | 174    | 6.5%    |
| Alcohol related problem(s)                 | 162    | 6.0%    |
| Other drug related problem(s)              | 148    | 5.5%    |
| New baby in home/pregnancy                 | 138    | 5.1%    |
| Good physical/mental health                | 130    | 4.9%    |
| Community/cultural support                 | 116    | 4.3%    |
| Loss of employment                         | 98     | 3.7%    |
| Crowded living conditions                  | 96     | 3.6%    |
| No history of violence                     | 89     | 3.3%    |
| Social isolation                           | 88     | 3.3%    |
| Appropriate child development knowledge    | 87     | 3.2%    |
| Stable marriage                            | 80     | 3.0%    |

Percent is the percentage of total investigations. Percent total is greater than 100 because up to 15 family characteristics may be reported for each investigation.

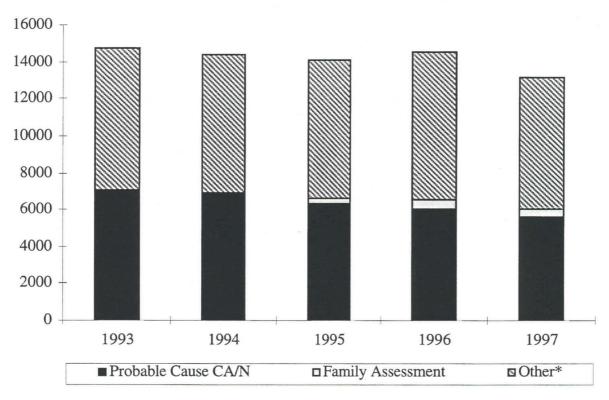

DFS has several programs designed to provide treatment and to help prevent future occurrence of child abuse and neglect.

Parental Stress Helpline: A DFS Parental Stress Helpline is available for parents who feel overwhelmed with parental pressures and responsibilities. The Helpline offers on-line crisis counseling to parents and provides referral information about local agencies which offer additional or more intensive services. The Helpline operates seven days a week, 24 hours a day. The toll-free telephone number of this emergency service is 1-800-367-2543. Calls to the Parental Stress Helpline may be anonymous. However, if information is given that indicates child abuse/neglect has taken place, and identifying information is provided, the information must be forwarded to the DFS county office for investigation.

Family-centered Services (FCS): FCS are provided to families and children in their own homes when a child abuse/neglect investigation has been concluded Probable Cause, Unsubstantiated-Preventive Services Indicated or Family Assessment-Services Needed. These services are also provided to families who voluntarily seek help and to families whose children are placed out of the home. Services are provided following a family-centered assessment to identify risk issues, family strengths and service needs. A family treatment plan is developed with the family to help them change the conditions which brought them to the attention of DFS. Services are designed to help the family direct their own affairs and provide suitable care for the children. The primary purpose of FCS is to improve and maintain the family unit or to reunify the family when alternative care services are provided. Services include a range of treatment and support services. The family treatment plan determines whether services are provided by DFS staff and/or purchased or provided by community agencies. Purchased services include day care, family and/or individual counseling, home-based, family-centered services, evaluation and diagnosis, homemaker services and respite care, among others.

- During 1997 there were 13,182 FCS cases opened in Missouri.
- From 1993 through 1997, forty-five percent (45%) of all FCS case openings were the result of a probable cause investigative conclusion.
- In 1997, three percent (3%) of all FCS case openings were the result of a Family Assessment.

<sup>\*</sup> Other includes Family Requests Preventive Services, Court Order and Newborn Crisis Assessment.

Family Preservation Services (FPS): FPS are intensive in-home services designed to prevent unnecessary out-of-home placement of children. An in-home specialist provides a variety of services to the entire family to address the crisis that would normally necessitate out-of-home care for a child. Services are delivered immediately at the time of crisis and are time-limited, usually four to six weeks. In-home specialists carry small caseloads of two to three families. This enables them to spend as much time with the family as needed. The emphasis of FPS is on strengthening the entire family by improving its problem-solving capabilities and teaching them necessary life skills. Among other services, families may receive family therapy, individual and marital counseling, parenting education, child development training, household maintenance and nutritional training, job readiness training and referrals to other community resources. Families authorized for FPS may have children who have been abused or neglected, have committed a status offense, have displayed delinquent behavior, or who are seriously emotionally disturbed and are at imminent risk of being removed from the home. This service is voluntary and at least one caretaker must be willing to participate.

Out-of-Home Placement: Out-of-home care is provided in situations where a parent or parents are incapable of providing a child or children with adequate social, emotional and physical care. Out-of-home is defined as care provided in licensed foster or approved relative family homes, in licensed residential facilities, or in licensed foster group homes. The service provides substitute settings for children. Children are placed only after it is determined that they cannot remain at home.

Prevention of Abuse and Neglect through Dental Awareness (P.A.N.D.A.): The P.A.N.D.A. Coalition is a statewide private/public partnership formed in April 1992 in response to the need to involve the dental community in the reporting and prevention of child abuse/neglect. The objective of the coalition is to educate dental professionals on the ease and importance of identifying and reporting child abuse/neglect. Members of the coalition include Delta Dental of Missouri (a dental insurance company), Missouri Dental Association, Missouri Dental Hygienists' Association, Missouri Department of Health/Bureau of Dental Health, Missouri Department of Social Services/DFS and University of Missouri-Kansas City School of Dentistry.

Crisis Nurseries: The first state-funded crisis nurseries began providing services to children and their families in May 1993. There are nine of these facilities. Crisis nurseries are child care facilities which protect children by providing a safe environment at a time when the chances of abuse/neglect in the home are increased. Parents voluntarily request and arrange this service directly with the crisis nursery.

Child Abuse/Neglect Review Board: Division of Family Services' social workers reach a conclusion on each child abuse/neglect investigation and notify the parents and alleged perpetrator (if different than the parents) by letter of the conclusion. In some investigations where the conclusion is probable cause, the alleged perpetrator may disagree with the finding. The alleged perpetrator may appeal to the Child Abuse/Neglect Review Board for review of the investigation by contacting the local DFS office within 60 days of the notification of the finding. If there are pending criminal charges, the request may be made 60 days from the court's final disposition or dismissal of charges. If convicted, there is no appeal.

The Child Abuse/Neglect Review Board consists of two boards of nine private citizens appointed by the Governor. These boards each meet twice per month to review child abuse/neglect appeals. They listen to testimony from DFS staff, the alleged perpetrator, and representatives of the child and then make a decision to uphold or reverse the original DFS decision. During 1997, the review board heard 259 cases. The percentage of cases upheld by the Board was 70%.

Following the Child Abuse and Neglect Review Board's disposition, the alleged perpetrator will have 30 days to request a judicial review.

Background Screening and Investigation Unit: The Background Screening and Investigation Unit conducts background checks through the child abuse/neglect systems in DFS. These checks are run on prospective foster and adoptive parents for DFS and for current or prospective employees in the child care industry (day care, residential care providers, schools, etc.). The purpose of the unit is to provide information on potential employees so that a prospective employer can assess if the person is appropriate to care for children. During 1997, the unit processed 108,074 background checks.

Mandated Reporter Referrals: The state child abuse/neglect law mandates certain professions (mandated reporters), to make a report to the Missouri Division of Family Services when they have reasonable cause to suspect that a child has been or may be subjected to abuse or neglect. However, many times the mandated reporter may not suspect abuse or neglect but has some other concern about a family.

Effective July 1996 the division implemented a policy to accept referrals of concern from a mandated reporter which does not rise to the level of a CA/N report. The division refers to these calls as Mandated Reporter Referrals. This service is being provided because division staff are often aware of community resources available to families and to continue the positive communication between DFS staff and mandated reporters. The reporter will be told by the hotline social worker whether their call is being accepted as a hotline report or as a Mandated Reporter Referral. Mandated Reporter Referrals will be reported immediately to the appropriate county DFS Office.

Local DFS staff will contact the reporter within three working days of the report, or the next working day if the report is received on a Friday, to discuss the situation with the mandated reporter and mutually determine the most appropriate action to be taken. The exception is if the report indicates an emergency situation the reporter will be contacted as soon as possible. While the division in a few situations may offer services to families, the primary purpose is to help the mandated reporter make community support connections for the family. The following are possible responses to the referrals:

- The mandated reporter is made aware of appropriate community resources and provides referrals for the family.
- The reporter or DFS staff contact the family by telephone to assist the family in arranging appropriate referrals.
- · DFS staff visit the family to obtain additional information and assess the needs of the family.
- DFS staff determine that, based upon additional information, a child abuse/neglect report is necessary.
- During 1997 there were 10,618 Mandated Reporter Referrals.

Conclusions are as follows:
Probable Cause - Court Adjudicated and Probable Cause
Unsub.-PSI - Unsubstantiated-Preventive Services Indicated

Unsub. - Unsubstantiated

FA - Family Assessment: Services Needed, Services Not Needed, and Non-cooperative/Child Safe Other - Unable to Locate, Inappropriate Report, Located Out of State and Home Schooling

Conclusions are as follows:
Probable Cause - Court Adjudicated and Probable Cause
Unsub.-PSI - Unsubstantiated-Preventive Services Indicated
Unsub. - Unsubstantiated
FA - Family Assessment: Services Needed, Services Not Needed, and Non-cooperative/Child Safe
Other - Unable to Locate, Inappropriate Report, Located Out of State and Home Schooling
Population data is based on the 1990 Census: Summary File 3, July 1992. Missouri population through age 17. U.S. Department of Commerce,
Bureau of the Census.

Percent is the percentage of total probable cause incidents. Percent total is greater than 100 because a probable cause incident may be assigned up to six categories of abuse/neglect.

Percent is the percentage of total probable cause children. Percent total is greater than 100 because a child may be found probable cause for up to four categories of abuse/neglect.
